

Pcounter México

Comprehensive and affordable network-oriented
Printer accounting and management software

Datasheet: [Qcontrol](#)

Qcontrol can be downloaded from www.pcounter-mexico.com/download.html or by contacting a Pcounter partner who can be located at:
www.pcounter-mexico.com/how2buy.html

A cross-platform tool for monitoring of network printers and queues.

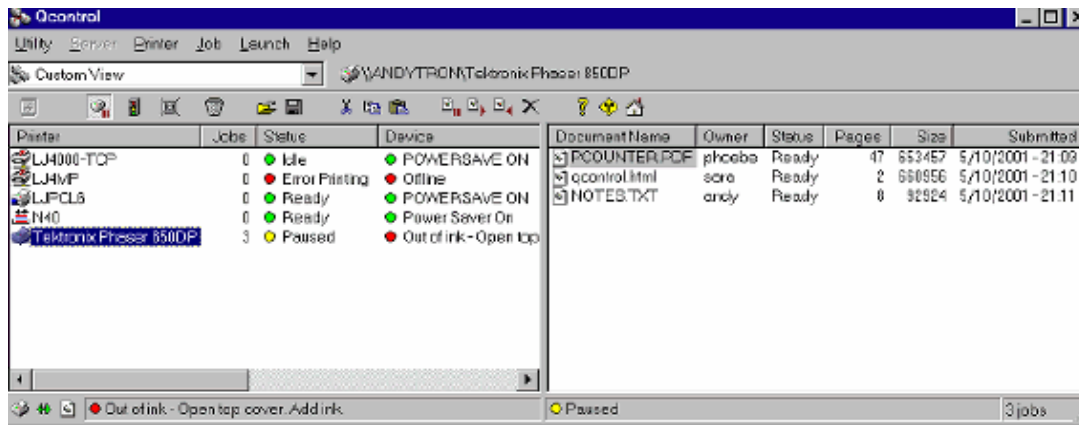

It is now possible to manage print jobs on Windows and NetWare printers from a single, central, browsable location.

Anyone who needs to watch many printers at once - helpdesks, printer operators, and administrators - will find Qcontrol a valuable asset for printer

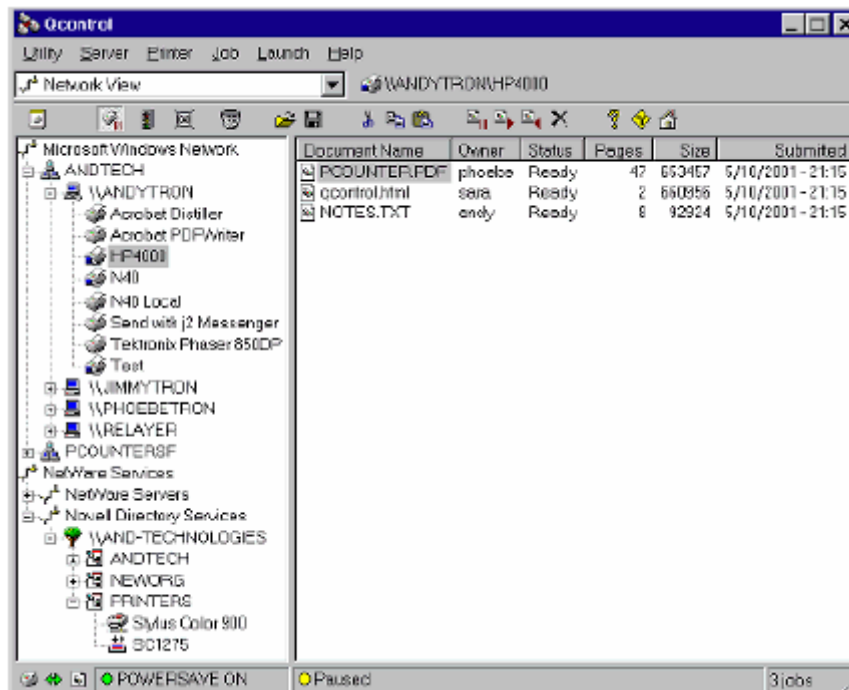

Other Features:

- Viewing and modification of print job document properties.
 - Modification of Windows NT printer properties. (Yes, even on remote computers.)
 - Modification of Novell (NDPS/Bindery/NDS) queue properties: Users, Operators, and Print servers.
 - Create new printers/queues, rename/delete existing ones.
 - Standard print control operations: pause/resume/purge printers and queues, pause/resume/restart/delete print jobs.
 - Enhanced print control operations:
cutting/copying/pasting/saving/viewing of print documents, moving jobs between printers and queues - even between Novell queues and Windows printers.
 - Drag and drop files onto printers/queues and drag documents from one printer/queue to another.
 - Launch printer configuration programs and/or connect to a printer's built-in web browser.
 - Realtime SNMP device status monitoring (requires Windows NT 4.0, 2000, or XP Professional). Qcontrol runs on all Windows versions. Novell Client 32 highly recommended for NetWare support.
- Qcontrol is included with the Pcounter software, but can be downloaded and purchased as stand-alone software.

Custom View displays only printers and queues you want to see.

Network View displays all printers and queues on your network.

Ocontrol can be downloaded from <http://www.pcounter-mexico.com/download.html> or by contacting a Pcounter partner who can be located at: <http://www.pcounter-mexico.com/how2buy.html>
